Note 1

For a description of the accounting policies followed refer to the notes to the Spartan Motors, Inc. (the "Company") annual consolidated financial statements for the year ended December 31, 2001, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 22, 2002.

Note 2

The accompanying unaudited interim condensed consolidated financial statements reflect all normal and recurring adjustments that are necessary for the fair presentation of the Company's financial position as of June 30, 2002, and the results of operations and cash flows for the periods presented.

Note 3

The results of operations for the six-month period ended June 30, 2002 are not necessarily indicative of the results to be expected for the full year.

Note 4

Inventories consist of raw materials and purchased components, work in process, and finished goods and are summarized as follows:

	June 30, 2002		December 31, 2001	
Finished goods	\$	5,410,106	\$	6,466,152
Raw materials and purchased components		14,430,886		11,234,222

Obsolescence reserve	• • •		(1,512,274)	
	\$	24,582,969	\$	23,587,813
	-			

Note 5

Since October 23, 1998, the Company has consolidated its majority-owned subsidiary, Carpenter Industries, Inc. ("Carpenter"), and recognized 100% of Carpenter's operating results. On September 28, 2000, the Company's Board of Directors passed a resolution to cease funding of Carpenter. Carpenter's Board of Directors then voted on September 29, 2000, to begin the orderly liquidation of Carpenter. Since Carpenter was a separate segment of the Company's business, the operating results and the disposition of Carpenter's net assets were accounted for as a discontinued operation.

-10-

Note 5 (continued)

The assets or liabilities of the discontinued operations have been segregated in the consolidated balance sheets. Details of such amounts at June 30, 2002 and December 31, 2001, are as follows:

	June 30, 2002		December 31, 2001	
Cash and cash equivalents Other current assets	\$	122,705 214,017	\$	1,453,198 84,717

Note 7

In June 2001, the Financial Accounting Standards Board (FASB) issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets," effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill (and intangible assets deemed to have indefinite lives) will no longer be amortized, but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. The Company applied the new rules on accounting for goodwill and other intangible assets beginning in the first quarter of 2002. Application of the non-amortization provisions of SFAS No. 142 would have resulted in an increase net earnings of \$104,251 (\$0.01 per diluted share) and \$208,502 (\$0.02 per diluted share) in the three- and six-month periods ended June 30, 2001, respectively. During the second quarter of 2002, the Company completed the initial impairment tests of goodwill as of January 1, 2002 as prescribed by SFAS No. 142, and has concluded that goodwill is not impaired.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations" for a disposal of a segment of a business. The Company was required to adopt SFAS No. 144 as of January 1, 2002 and it does not expect the adoption of the Statement to have a significant impact on the Company's financial position and results of operations.

The Company is in the process of disposing of certain real property which is no longer being used in the operations of the business. The Company expects that disposition of such property will be completed within the next year given current market conditions and the location and condition of the properties, subject only to the resolution of a legal issue with respect to the property which is currently in litigation. Under the provisions of SFAS No. 144, such property is recorded in the accompanying consolidated balance sheets at the lower of cost or estimated net selling price. The property is no longer being depreciated pending its sale. However, under the transition rules contained in SFAS No. 144, should this asset no longer qualify as an asset held for sale at December 31, 2002 under the definition contained in the statement, the asset would be reclassified as an asset held and used at that date and re-measured to the lower of its original carrying amount adjusted for depreciation had the asset been in continuous use or its fair value.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is a discussion of the major elements impacting the Company's financial and operating results for the three- and six-month periods ended June 30, 2002 compared to the three- and six-month periods ended June 30, 2001. The comments that follow should be read in conjunction with the Company's condensed consolidated financial statements and related notes contained in this Form 10-Q.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, the components of the Company's consolidated statements of operations, on an actual basis, as a percentage of sales:

Three Months End	ded June 30,	Six Months Ended June 30,		
2002	2001	2002	2001

Three-Month Period Ended June 30, 2002, Compared to the Three-Month Period June 30, 2001

For the three months ended June 30, 2002, consolidated sales increased \$6.8 million (11.6%) to \$65.3 million, from \$58.5 million in the second quarter of 2001. Chassis Group sales for this period increased by \$7.1 million (15.9%). The majority of this increase is due to higher sales of motorhome chassis. During the second quarter of 2002, motorhome chassis sales were 44.7% higher than the second quarter of 2001. This increase is due to increased demand for motorhomes, in part as a result of improved economic conditions in the United States.

-14-

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Fire truck chassis sales in the second quarter of 2002 were down 21.4% over the same period of 2001. The fire truck market continues to be strong in 2002, with the decrease in second quarter sales primarily attributable to a temporary decrease in orders after the terrorist attacks of September 11, 2001. Orders rebounded in the second quarter of 2002 (as noted below), but the majority of sales revenue related to these orders will not be reflected until the third and fourth quarters of 2002 due to lead times for major fire truck chassis components.

EVTeam sales increased \$0.3 million, or 1.6%, from their sales level in the prior year's second quarter. The EVTeam's solid backlog insulated the

segment from the short-term decrease in orders subsequent to September 11th, resulting in mild sales growth over the second quarter of 2001.

Gross margin increased from 15.4% for the quarter ended June 30, 2001 to 17.8% for the same period of 2002. This increase is due to two primary factors. First, improved product quality and reliability has translated to lower warranty expense. Second, continued inventory monitoring, coupled with lower inventory levels, has resulted in fewer inventory write-offs.

Operating expenses as a percentage of sales stayed flat at 10.9% for the quarters ending June 30, 2002 and 2001. Operating expenses in dollars rose \$0.7 million, or 11.7%, as the Company continues its efforts in research and development and in marketing its brand image.

Other income (expense) improved from (0.5)% of sales in the three months ended June 30, 2001 to 0.0% of sales in the same period in 2002. The Company paid off its interest bearing debt during April of 2002, resulting in lower interest expense in 2002 than in 2001.

The effective tax rate in the second quarter of 2002 was 39.1% versus 45.0% for the second quarter of 2001. The Company's effective tax rate fluctuates based upon the states where sales occur and with the level of export sales.

On September 28, 2000, the Company's Board of Directors passed a resolution to cease funding of the Company's majority-owned subsidiary, Carpenter Industries, Inc. Carpenter's Board of Directors then voted on September 29, 2000, to begin the orderly liquidation of Carpenter. The disposition of Carpenter's assets is being accounted for as a discontinued operation. The \$0.3 million gain on disposal of Carpenter in 2002 is a result of the Company's revision of its estimated loss to dispose of the business, based upon resolution of certain litigation related to the disposal. There was no impact from the discontinued operation in the second quarter of 2001. Details of Carpenter's assets and liabilities at June 30, 2002 and December 31, 2001, are set forth in Note 5 to the condensed consolidated financial statements included in Item 1 of this Form 10-Q.

-15-

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Total chassis orders received during the second quarter of 2002 increased 50.6% compared to the same period in 2001. This is due to a 27.5% increase in motorhome chassis orders coupled with a 115.3% increase in fire truck chassis orders. Based on average order lead-time, the Company estimates that approximately one-half of the motorhome, one-third of the specialty, and none of the fire truck chassis orders received during the quarter ended June 30, 2002 were produced and delivered by June 30, 2002.

Six-Month Period Ended June 30, 2002, Compared to the Six-Month Period June 30, 2001

For the six months ended June 30, 2002, consolidated sales increased \$14.9 million (12.7%) to \$132.0 million, from \$117.2 million in the first six months of 2001. Chassis Group sales for these periods increased by \$14.6 million (16.5%). The majority of this increase is due to higher sales of motorhome chassis. During the first half of 2002, motorhome chassis sales were 41.6% higher than the first half of 2001. This increase is due to increased demand for motorhomes, in part as a result of improved economic conditions in the United States.

Fire truck chassis sales in the first six months of 2002 were down 16.5% over the same period of 2001. The fire truck market continues to be strong in 2002, with the decrease in sales primarily attributable to a temporary decrease in orders after the terrorist attacks of September 11, 2001. Orders have picked up in the first half of 2002 (as noted below), but the majority of sales revenue related to these orders will not be reflected until the third and fourth quarters of 2002 due to lead times for major fire truck chassis components.

EVTeam sales increased \$1.2 million, or 3.5%, from their sales level in the prior year's first half. The EVTeam's solid backlog insulated the segment from the short-term decrease in orders subsequent to September 11th, resulting in sales growth over the first six months of 2001.

Gross margin increased from 15.5% for the six months ended June 30, 2001 to 18.1% for the same period of 2002. This increase is due to two primary factors. First, improved product quality and reliability has translated to lower warranty expense. Second, continued inventory monitoring, coupled with lower inventory levels, has resulted in fewer inventory write-offs.

Operating expenses as a percentage of sales stayed consistent at 11.0% for the six months ending June 30, 2002 versus 10.6% for the same period in 2001. Operating expenses in dollars rose \$2.1 million, or 17.0%, as the Company continues its efforts in research and development and in marketing its brand image.

Other income (expense) improved from (0.6)% of sales in the six months ended June 30, 2001 to (0.1)% of sales in the same period in 2002. The Company paid off its interest bearing debt during April of 2002, resulting in lower interest expense in 2002 than in 2001.

-16-

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

The effective tax rate in the first half of 2002 was 35.0% versus 45.1% for the first half of 2001. The Company's effective tax rate fluctuates based upon the states where sales occur and with the level of export sales.

On September 28, 2000, the Company's Board of Directors passed a resolution to cease funding of the Company's majority-owned subsidiary,

Carpenter Industries, Inc. Carpenter's Board of Directors then voted on September 29, 2000, to begin the orderly liquidation of Carpenter. The disposition of Carpenter's assets is being accounted for as a discontinued operation. The \$0.3 million gain on disposal of Carpenter in 2002 is a result of the Company's revision of its estimated loss to dispose of the business, based upon resolution of an open item related to the disposal. There was no impact from the discontinued operation in the first half of 2001. Details of Carpenter's assets and liabilities at June 30, 2002 and December 31, 2001, are set forth in Note 5 to the condensed consolidated financial statements included in Item 1 of this Form 10-Q.

Total chassis orders received during the first six months of 2002 increased 44.3% compared to the same period in 2001. This is due to a 34.7% increase in motorhome chassis orders coupled with a 65.1% increase in fire truck chassis orders. Based on average order lead-time, the Company estimates that approximately one-half of the motorhome, one-third of the specialty, and one-sixth of the fire truck chassis orders received during the six-month period ended June 30, 2002 were produced and delivered by June 30, 2002.

At June 30, 2002, the Company had \$82.7 million in backlog compared with a backlog of \$83.7 million related to continuing operations at June 30, 2001. This was due to an increase in Chassis Group backlog of \$9.2 million, or 21.0%, offset by a decrease in EVTeam backlog of \$10.2 million, or 25.4%.

While orders in the backlog are subject to modification, cancellation or rescheduling by customers, the Company has not experienced significant modification, cancellation or rescheduling of orders in the past. Although the backlog of unfilled orders is one of many indicators of market demand, several factors, such as changes in production rates, available capacity, new product introductions and competitive pricing actions, may affect actual sales. Accordingly, a comparison of backlog from period to period is not necessarily indicative of eventual actual shipments.

LIQUIDITY AND CAPITAL RESOURCES

For the six months ended June 30, 2002, cash provided by operating activities from continuing operations was \$7.1 million, which was \$10.2 million (59.0%) lower than the \$17.3 million of cash provided by operating activities from continuing operations for the six months ended June 30, 2001. See the Condensed Consolidated Statements of Cash Flows contained in Item 1 of this Form 10-Q for the various factors that led to this decrease. The cash provided by operating activities in 2002, combined with the cash on hand at December 31, 2001 and cash provided from the exercise of stock options of \$6.1 million, allowed the Company to pay off \$11.4 million in long-

-17-

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

term debt and also to fund the \$4.3 million in property, plant and equipment purchases, primarily related to the Company's plant expansion in South Carolina. The Company's working capital increased \$0.7 million from \$29.2 million at December 31, 2001 to \$29.9 million at June 30, 2002. See the Condensed Consolidated Statements of Cash Flows contained in Item 1 of this Form 10-Q for further information regarding the decrease in cash and cash equivalents, from \$4.2 million at December 31, 2001 to \$0.3 million at June 30, 2002.

Shareholders' equity increased \$13.5 million in the six months ended June 30, 2002 to \$50.4 million. This change resulted from the \$6.3 million in net earnings of the Company, the receipt of \$6.1 million from the exercise of stock options and the \$2.1 million tax benefit related to the exercise of stock options offset by \$1.1 million paid in dividends.

The Company's primary line of credit is a \$25.0 million revolving note payable to a bank. The Company also has the availability for term notes under the same debt agreement. Under the terms of the line of credit and term note agreement, the Company is required to maintain certain financial ratios and other financial conditions. The agreement also prohibits the Company from incurring additional indebtedness, limits certain acquisitions, investments, advances or loans, and restricts substantial asset sales. At June 30, 2002 the Company was not subject to any debt covenants because no borrowings were outstanding.

The Company also has a secured line of credit for \$0.2 million and an unsecured line of credit for \$1.0 million. The \$0.2 million line carries an interest rate of 2% above the bank's prime rate (prime rate at June 30, 2002 was 4.75%) and has an expiration date of June 1, 2003. This line of credit is secured by accounts receivable, inventory and equipment. There were no borrowings on this line at June 30, 2002. The \$1.0 million line carries an interest rate of 1% above the bank's prime rate and expires only if there is a change in management. There were no borrowings on the \$1.0 million line at June 30, 2002. The Company believes it has sufficient resources from cash flows from operating activities and, if necessary, from additional borrowings under its lines of credit to satisfy ongoing cash requirements for the next 12 months.

EFFECT OF INFLATION

Inflation affects the Company in two principal ways. First, the Company's debt is tied to the prime and LIBOR interest rates so that increases affecting interest rates may be translated into additional interest expense. Second, general inflation impacts prices paid for labor, parts and supplies. Whenever possible, the Company attempts to cover increased costs of production and capital by adjusting the prices of its products. However, the Company generally does not attempt to negotiate inflation-based price adjustment provisions into its contracts. Since order lead times can be as much as six months, the Company has limited ability to pass on cost increases to its customers on a short-term basis. In addition, the markets the Company serves are competitive in nature, and competition limits the Company's ability to pass through cost increases in many cases. The Company strives to minimize the effect of inflation through cost reductions and improved productivity.

FORWARD LOOKING STATEMENTS

This Form 10-Q contains statements that are not historical facts. These statements are called "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements involve important known and unknown risks, uncertainties and other factors and can be identified by phrases using "estimate," "anticipate," "believe," "project," "expect," "intend," "predict," "potential," "future," "may," "should" and similar expressions or words. Our future results, performance or achievements may differ materially from the results, performance or achievements discussed in the forward-looking statements. There are numerous factors that could cause actual results to differ materially from the results discussed in forward-looking statements, including:

- Changes in existing products liability, tort or warranty laws or the introduction of new laws, regulations or policies that could affect our business practices: these laws, regulations or policies could impact our industry as a whole, or could impact only those portions in which we are currently active, for example, laws regulating the design or manufacture of emergency vehicles or regulations issued by the National Fire Protection Association; in either case, our profitability could be injured due to an industry-wide market decline or due to our inability to compete with other companies that are unaffected by these laws, regulations or policies.
- Changes in environmental regulations: these regulations could have a negative impact on our earnings; for example, laws mandating greater fuel efficiency could increase our research and development costs.
- Changes in economic conditions, including changes in interest rates, financial market performance and our industry: these types of changes can impact the economy in general, resulting in a downward trend that impacts not only our business, but all companies with which we compete; or, the changes can impact only those parts of the economy upon which we rely in a unique fashion, including, by way of example:
 - Factors that impact our attempts to expand internationally, such as the introduction of trade barriers in the United States or abroad.
- Changes in relationships with major customers: an adverse change in our relationship with major customers would have a negative impact on our earnings and financial position.
- The effects of the September 11, 2001 terrorist attacks: the considerable political and economic uncertainties
 resulting from these events could adversely affect the Company's order intake and sales, particularly in the
 motorhome market.
- Factors that we have discussed in previous public reports and other documents filed with the Securities and Exchange Commission.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

This list provides examples of factors that could affect the results described by forward-looking statements contained in this Form 10-Q. However, this list is not intended to be exhaustive; many other factors could impact our business and it is impossible to predict with any accuracy which factors could result in which negative impacts. Although we believe that the forward-looking statements contained in this Form 10-Q are reasonable, we cannot provide you with any guarantee that the anticipated results will be achieved. All forward-looking statements in this Form 10-Q are expressly qualified in their entirety by the cautionary statements contained in this section and you are cautioned not to place undue reliance on the forward-looking statements contained in this Form 10-Q. In addition to the risks listed above, other risks may arise in the future, and we disclaim any obligation to update information contained in any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company's primary market risk exposure is a change in interest rates in connection with its outstanding variable rate short-term and long-term debt. However, at June 30, 2002, the Company had no debt outstanding under its variable rate short-term and long-term debt.

PART II. OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders.

The annual meeting of shareholders of Spartan Motors, Inc. was held on June 11, 2002. The purpose of the meeting was to elect directors, ratify the appointment of Ernst & Young LLP as independent auditors for the current fiscal year and transact any other business that properly came before the meeting. The name of each director elected to a term expiring in 2005 (along with the number of votes cast for or authority withheld) is as follows:

Elected Directors	<u>For</u>	Authority <u>Withheld/Against</u>
William F. Foster	9,864,868	153,777
Richard J. Schalter	9,902,268	116,377

The following persons continue to serve as directors: John E. Sztykiel, Charles E. Nihart, George Tesseris and David R. Wilson.

The following proposal was acted on:

<u>Proposal</u>	<u>For</u>	<u>Against</u>	<u>Abstain</u>
Proposal to ratify the appointment of			
Ernst & Young LLP as independent	9,958,979	48,865	10,801
auditors for the current fiscal year			

Item 6. Exhibits and Reports on Form 8-K.

(a) <u>Exhibits</u>. The following documents are filed as exhibits to this report on Form 10-Q:

Exhibit No.	<u>Document</u>
3.1	Spartan Motors, Inc. Restated Articles of Incorporation, as amended to date. Previously filed as an exhibit to the Company's Annual Report on Form 10-K for the period ended December 31, 2000, and incorporated herein by reference.
3.2	Spartan Motors, Inc. Bylaws, as amended to date. Previously filed as an exhibit to the Company's Quarterly Report on Form 10-Q for the period ended September 30, 2001, and incorporated herein by reference.

-22-

⁽b) Reports on Form 8-K. The Company filed the following Current Reports on Form 8-K during the quarter ended June 30, 2002. Both of these Forms 8-K were furnished pursuant to Regulation FD and are considered to have been "furnished" but not "filed" with the Securities and Exchange Commission.

Date of Report	Filing Date	Item(s) Reported
April 8, 2002	April 8, 2002	This Form 8-K included a press release that announced the Company's preliminary sales results for the first quarter of 2002.
April 25, 2002	April 25, 2002	This Form 8-K included a press release that announced the Company's financial results for the first quarter of 2002 and included condensed income statements for the three-month periods ended March 31, 2002 and 2001.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Date: August 14, 2002 SPARTAN MOTORS, INC.

By /s/ James W. Knapp
